ABOUT ME

Fullstack Engineer with hands-on experience leading development teams and delivering complete software products — from initial planning and architecture to production launch. Proficient in Python backends and modern web frontends.

Improved page load speed by **~27%** for a CRM system through a full frontend rebuild, and reduced server response times by **~32%** through infrastructure optimizations. Proven ability to take ownership of complex problems and deliver measurable results.

ICPC Northern Eurasia finalist currently studying AI Engineering. Background spans web applications, desktop software, and server integrations. Focused on building reliable, high-performance products.

SKILLS

Fullstack
Python · Django · Django REST Framework · FastAPI · PostgreSQL · Redis · Celery · WebSockets · React · Next.js · SvelteKit · Svelte · TypeScript · Tailwind CSS · JavaScript · Java

Other
Docker · Docker Compose · CI/CD · Nginx · Git · .NET (Windows desktop) · Supabase · Firebase · Linux · Bash · AWS · GCP · Competitive Programming (ICPC)

EXPERIENCE

KNEW IT: 08/2026 - PRESENT, 2+ MONTHS (FREELANCE)

- Led a team of **5 developers** building a production CRM from scratch for an EdTech school — covering leads, deal pipelines, accounts/contacts, tickets, knowledge base, tasks/timesheets, invoicing, and staff settings
- Proposed and executed a full frontend migration from legacy React to SvelteKit 2 / Svelte 5, cutting page load times by **~27%**
- Optimized core backend APIs with Redis caching and WebSockets, reducing server response latency by **~32%**
- Designed and maintained CI/CD pipelines and Docker Compose infrastructure for consistent production deployments.

Technologies: Python, Django, DRF, SvelteKit 2, Svelte 5, PostgreSQL, Redis, Celery, WebSockets, Docker, Supabase, Nginx

OINGO: 10/2025 – 09/2026, 1 YEAR

- Co-founded and led end-to-end development of a PC club operations platform serving **5 clubs** across Almaty, Kazakhstan
- Architected a **multi-client system**: web admin panel, mobile app (Expo/React Native), Windows kiosk software, and a marketing site — all connected to a single backend
- Built an offline-fallback local server that keeps guest sessions running during connectivity loss, reducing **~29 downtime** incidents per month
- Led a team **6 engineers**, managed task distribution, code reviews, and release cycles

Technologies: Python, Django, DRF, PostgreSQL, Redis, WebSockets, Django Channels, Next.js, TypeScript, React Query, Tailwind, Expo, React Native, .NET 8, Docker, Firebase, Supabase, Nginx

IITU: 09/2025 – 08/2026, 1 YEAR

- Led development of the official website for IITU's **Innovation Center (ino.iitu.kz)** — a platform supporting student startups from idea to prototype
- Managed a team of **4 student developers**: requirements, architecture decisions, task assignment, and production deployment
- Introduced containerization with **Docker**, standardizing the development and deployment workflow across the team

Technologies: Python, Django, DRF, PostgreSQL, Redis, Tailwind, Docker, Firebase, Supabase, Nginx

KAZAKHSTAN TRAVEL: 03/2025 – 07/2026, 5 MONTHS (FREELANCE)

- Built a bilingual (RU/EN) **e-commerce platform** for a tour operator — tour catalog with filtering, shopping cart, order flow, live currency exchange rates (USD/KZT/RUB) with automatic updates, and a blog
- Implemented **SEO optimization** including meta tags, sitemap, and structured data — improving organic search visibility for key travel queries
- Handled full **server administration** independently: deployment, Nginx configuration, and production monitoring

Technologies: Next.js, TypeScript, Tailwind CSS, Nginx, Linux

EDUCATION

INTERNATIONAL INFORMATIONAL TECHNOLOGIES UNIVERSITY

ALMATY, KAZAKHSTAN

ARTFICIAL INTELLIGENCE - BACHELOR, 2025 - 2028

CERTIFICATIONS

- Leadership and Influencing Skills — Google, Mar 2026
- Docker Fundamentals: Understanding Containers and Images — Packt, Mar 2026
- Introduction to Docker — Google Cloud, Jan 2026
- Artificial Intelligence (AI) For Everyone — DeepLearning.AI, Dec 2025
